Biggest & Largest Free Chat Rooms Online in 2019 at Sexi-Latinos: Online Chat Forum & Live On-line Chatting. Huge download speed record player .3-Dimensional images of the human heart have been obtained by multisection, multislice, tomographic imaging methods, i.e., X-ray computed tomography (CT), magnetic resonance imaging (MRI), single photon emission computerized tomography (SPECT), and positron emission tomography (PET). However, these methods suffer from several limitations, such as a limited time window for investigation and the need for ionizing radiation, which prohibits repeated examinations. Optical imaging with visible light is an emerging modality to obtain 3-dimensional images of various dynamic organs in the body, such as the heart, kidney, bladder, etc. Computed tomography (CT) imaging is based on a projection of light emitted from a target through a known projection device, such as a screen or a lens. The
