GUI MBR SLIC Loader 0.621 v1.2 The Power of Focused Small Business Marketing On the weekend of July 28th, I participated in a small business owner who specializes in marketing and branding. Lina, our new friend's marketing advice was, as always, spot on. "The key to getting your small business on the map is to market yourself as being great, not as being in business. If you are great, you'll be taken seriously, but it's really not so. Your business is a reflection of who you are, but, that's the good news. You can work on who you are and, as a result, your business will be awesome. Lina explained that, if you set yourself up as being a person who is great, people will start to notice you. If you are a mom and wear a short dress to the grocery store every morning, that's just the way you are and no one should be surprised you have a great wardrobe. Lina's tip on branding was, "Don't have a brand. Make a brand. Don't brand your business. What do you want people to associate with you?" Go into every interaction with your business a little bit the way you want people to think about you. Branding isn't just about creating a logo or a brand. It's about creating with potential customers. The brand we present is the brand we live. It's the image we want people to see
